

12 February 1979

MEMORANDUM FOR THE RECORD

FROM: [REDACTED]
Chief, CSG

SUBJECT: Contact with HPSCI:
Mr. Tom Latimore
Ms. Diane Lavoie

1. While at the Community Headquarters Building, 9 February, [REDACTED] ExSec COMIREX, asked for security assistance. A Talent Keyhole TS level paper on Warnings [REDACTED] was endorsed for decompartmentation and downgrading to the SECRET level by DIA subject to certain changes to be made by Ms. Diane Lavoie HPSCI staff member. The form of the notice of changes was being proposed as a sheet showing line and word changes. [REDACTED] asked if there was some way the HPSCI could be encouraged to prepare full pages to be substituted in the document by holders rather than ask them to work from a long list of required changes.

2. I volunteered to contact Tom Latimore and inquire. This was acceptable to [REDACTED] I called Latimore. He heard me out and agreed that there would be less chance for slippage if page substitutions were offered. He said he would handle.

3. Ms. Lavoie called me back a few minutes later and pleasantly informed that she would issue corrective pages to her holders of the document. I suggested and she agreed to inform DIA of this action, supplying copies of the changed pages in the event DIA wanted to inform its holders of the document.

4. She thanked me for the information and guidance and said she would be back in touch should problems arise.
